30/07/2020

Dear Parents of Year 9 Students,

## Changes to Subject Selection Process

Due to COVID-19 restrictions not being ease by the commencement of Term 3 we have been required to make some changes to our processes for Subject Selection.

Our information evening scheduled to be held on Tuesday 4<sup>th</sup> August, will unfortunately be unable to proceed as we are unable to host parent gatherings on the school site.

To ensure parents are well informed of the requirements for the subject selection process we will be providing the following options:

**Printed Information Booklet** – Students will receive their information booklets during the week commencing 10<sup>th</sup> August. I encourage you to read this booklet carefully as we introduce the STRIVE program in 2021.

**Website Information** – We will launch a video for each subject area including some important videos on how the process works and how students are to choose their subjects on Monday 17<sup>th</sup> August. Be careful to choose the correct section, ie Year 9 and 10 Strive.

**Online Information Session** – We will conduct a brief information session with the ability for parents to ask questions from **6pm– 6.30pm on Tuesday 18<sup>th</sup> August**. Parents can join the session via Zoom using the details below. Attached to this letter is an instruction sheet on setting up Zoom.

Meeting ID: 661 5982 4991

Passcode: Glendalehs

Students will receive their codes to make their subject selections following the Online Information Session via their school email. All choices must be finalised by 21<sup>st</sup> August.

I encourage all parents to read the booklet sent home with students, have a look at the videos on the school webpage and join the information session to ensure you are well informed as your child makes important decisions for their future studies.

We looking forward to seeing you online.

Mr Anthony Angel  
Principal
